Antalya, Turkey

A note from the course director

I am happy to announce the American Oral & Maxillofacial Surgery Refresher Course in beautiful Antalya, Turkey. It is my privilege, in conjunction with OMS Educational Services and Drs. George Obeid and Figen Senel, to host this unique refresher course in Turkey. With its sprawling beaches, spectacular ruins and luxurious amenities, Antalya is arguably one of the most amazing destinations in the Mediterranean!

This course will offer you the most innovative and up-to-date concepts in Oral and Maxillofacial Surgery. It will present a unique opportunity for participants to maximize their continuing education while taking advantage of such a lovely destination. We look forward to seeing you in Antalya!

Moe Bayat, DDS
Course Director

A note from the scientific directors

It is our pleasure to collaborate with Dr. Bayat in bringing an American- style oral and maxillofacial surgery refresher course to the region. Together with several renowned faculty of some of the top teaching and training programs in the United States, we have put together a comprehensive course that will update any oral and maxillofacial surgeon in a number of key aspects of the field.

The format of this refresher course will be different from a standard conference or symposium; it will be a traditional classroom set up in which we will review in detail the core curriculum in oral and maxillofacial surgery as well as new and current trends. On any given year, several courses of this kind are offered by esteemed institutions in the United States. They are generally sought after by individuals preparing for board certification as well as by practicing surgeons who like to stay current on their professional practice. We are pleased to be presenting such a course for the first time in the region.

On behalf of the entire faculty, we look forward to meeting you and to having the opportunity to share our professional experience with you.

George Obeid, DDS
Director of the Scientific Program

Figen Senel, DDS, PhD
Coordinator of the Scientific Program

Who should attend this course?

Practicing oral and maxillofacial surgeons that wish to update their knowledge with practical information that promotes the health of their patients.

Oral and maxillofacial surgeons involved in the training and education of residents.

Practicing oral and maxillofacial surgeons who are planning to take their respective country's oral and maxillofacial surgery board examination.

Oral and maxillofacial surgery residents in training that are preparing for a future career in oral and maxillofacial surgery.

Why you should attend this course

Start planning now to attend The American Oral and Maxillofacial Surgery OMS Refresher Course, the only one of its kind offered in the region. This type of OMS Refresher Course, which is being offered regularly in the United States, is acclaimed throughout the community of the American Oral and maxillofacial surgeons.

The intensive week-long program provides participants with knowledge of the core subjects of the specialty. It is presented in a classroom style; Lectures are complemented with ample opportunity for personal contact with world renowned oral and maxillofacial surgeons as well as colleagues in the region.

Faculty

Dr. Meredith August: Associate Professor, Department of Oral and Maxillofacial Surgery
Massachusetts General Hospital

Dr. O. Ross Beirne: Chairman, Department of Oral and Maxillofacial Surgery
University of Washington

Dr. Eric J. Dierks: Clinical Professor of Oral and Maxillofacial Surgery
Oregon Health and Science University

Dr. Ghali. E. Ghali: Chairman, Department of Oral and Maxillofacial Surgery
Louisiana State University Health Sciences Center, Shreveport

Dr. Robert D. Marciani: Chairman, Department of Oral and Maxillofacial Surgery
University of Cincinnati Medical Center

Dr. Louis G. Mercuri: Professor of Surgery, Stritch School of Medicine
Loyola University of Chicago

Dr. Robert A. Ord: Chairman, Department of Oral and Maxillofacial Surgery
University of Maryland at Baltimore

Dr. Hamid Shafie: Director of Implant Dentistry
Washington Hospital Center

Dr. R. Gilbert Triplett: Chairman, Department of Oral and Maxillofacial Surgery
Baylor College of Dentistry-Texas A&M, University Health Sciences Center

Dr. Joseph E. Van Sickels: Chairman, Department of Oral and Maxillofacial Surgery
University of Kentucky

The American Oral

Course Overview

This comprehensive seven-day course has been designed to provide an update of the full scope of the specialty by recognized leaders in their respective fields, including recent advances and new approaches to patient evaluation and treatment. The course material presented will focus on American treatment protocols, supported by case presentations and evidence-based research.

Objectives

Upon completion of this course, participants should be able to:

- Assess the impact of systemic disease on patient management
- Develop criteria for administering in-office sedation and preventing related complications
- Assess and identify treatment options for malignant and non malignant lesions of the oral and maxillofacial region
- Identify treatment options in maxillofacial reconstruction and facial esthetics
- Evaluate oral and maxillofacial trauma and develop treatment plans
- Evaluate dentofacial deformities and develop treatment plans
- Evaluate oral and maxillofacial infections and develop treatment plans
- Evaluate and develop treatment plans for patients with craniofacial syndromes and cleft lip and palate deformities
- Recognize and prevent complications that arise in dentoalveolar surgery
- Evaluate and develop treatment plans for patients with temporomandibular joint disorders
- Identify the optimal dental implant for various clinical settings

and Maxillofacial Surgery
